learners in the laboratory. No students are allowed to do experiments in the absence of teacher computer laboratory. Centralised computer laboratory established to enrich all the students of traditional and modern subjects. Each department having appropriate computer for their requirement.

All computers are well connected with Internet with LAN and WiFi. computer maintenance through concerned campus office is done regularly and non-repairable systems are disposed of Students will be held liable for any damage caused to computers in case students found guilty.

University has in-door and out-door sports facilities. Students are encouraged to participate in various sports activities at all campuses. our campuses organizes annual sports week in eve of Annual Day Programme every year and the first three winners are felicitated. In addition to this, our university organizes youth festival for all campus level. The rules for players are depending on the sports they play and also the level they play at. This practice prevents a bias against things such as age, development & skill on team. All sports players are expected to follow certain rules governed by their team such as attending practices, good behaviour, wearing the correct uniform etc. Players may also be expected to train & practice outside of their playing session to stay physically fit and updated on their sports skills. Especially our teams are participated in AIU tournaments also. However, regarding the maintenance of the sports equipment sports teacher is appointed. All maintenance are carried out by main office and any issues regarding the maintenance of the sports equipment's will be pointed by the sports committee. Handbooks/prospects has been prepared consisting all procedures and policies for all facilities.

 - Plantation in Campus Premises
 - Solar System in Boys and Girls Hostels (Alternate Energy initiatives)

Percentage of power requirement of the University met by the renewable energy sources: NA

The campus has beautiful premises full of lush greenery which is quite soothing to the eye and the spirit. Added to this are massive trees which predate the construction of the campus buildings. So, environmental consciousness is clearly seen at work in the way the care has been taken to undertake the construction of the building without disturbing the age-old trees. Care is also taken to maintain the surroundings to a spruce and sparkling condition in which the students are also involved through cleanliness drives. Their participation is also ensured during the various tree plantation drives that take place in the campus from time to time.

So far, the renewable sources of energy are not being used for energy conservation of non-renewable energy sources. We planned to install solar lights to light up the campus roads during night, but the plan could not be implemented because of resource crunch

- Plantation & maintenance of “Navagrah Vatika” by Dept. of Jyotish.
- Tree plantation is made by Shiksha Shastri students in the campus.”

1. Improving Teaching and Learning Process

Goal: To achieve the principles of the teaching / learning process which are multi-fold in manner, various processes are now applied. The principles on which this best practice was decided was – to raise the curiosity of a student in a particular topic, to encourage the students, to question the obvious and to increase the interaction in the class.

Keeping the audience captivated throughout the lecture is another challenge. The facilitator is required to use a variety of tools to keep the learner engaged in the learning process. Having access to a variety of tools all the time may not be possible. Today knowledge is just a click away to the learner; a challenge faced by

facilitators is to keep pace with the latest news and happenings. The teaching/learning process is given immense importance in the institute. The institute is as good as its students. The students are as good as the teachers. The institute trains their facilitators continuously to help them enhance their teaching abilities. The learning imparted to the teachers is implemented in enhancing the learning experience of the learner.

The Practice:

The teaching /learning process starts with designing of a lecture plan by the facilitator. The lecture plan is given in advance to the learners. The facilitator initiates a discussion or tells a story or questions the learners before defining the objectives. The objectives of the lectures are defined to specify the learner the learning outcomes. During the lecture, discussions and questionings are encouraged. Holistic learning is encouraged through the continuous evaluation system. Various forms of assessment are used for continuous evaluation such as group discussions, assignments, PowerPoint presentations and class tests to name a few. Various co-curricular activities are also organized for the learners. These activities give an opportunity to the students to put their knowledge into application. An aspect very unique about our teaching /learning process is the freedom given to learners to share their views and ideas. Even ideas that sound impractical are discussed and a proper explanation is given to the learners why they cannot be implemented. The learner is the part of the learning process rather than just a spectator of the same. A major limitation of the teaching /learning process is the time constraint. The facilitators have various ideas which they would like to implement in their class, however due to paucity of time, all of them cannot be implemented.

2. Improving Academic Research

Goal:

The goal of the practice was to achieve higher inclination towards research among the faculty through updating their awareness about research and methods of conducting research. With the main aim of providing training to the teaching staff so as to increase the quality of education and research activities in the College.

Enhancement of research helps in increasing know-how of contemporary issues. This results in enrichment of educational quality percolating to students. Training imparted to individual faculty is assessed through Faculty Profile. Many conferences and seminars were also conducted to imbibe research culture

The Practice: The increase in research would lead to enriched education percolation to students. Research activities are of immense importance in higher educational institution. The University had decided to increase these activities so that the students could also benefit out of this. The practice to be employed was of providing training to the teaching staff so as to increase the quality of education and research activities in the college. However, external training imparted to individual faculty is assessed through Faculty Profile. Year wise focus areas were defined and training held according to the plans made. Training in these areas was necessary to build a research environment among the staff.
